GEOGHEGHAN'S RESOLUTION

Sets Forth That it is an Outrage to Keep the Schools Closed Against the Unvaccinated Children.

The true feeling of the members of the school board in relation to the prohibiting of unvaccinated children from entering the public schools were reyealed last night, when an effort was made by some of the members to open the schools to all children. The feelings of some of them are quite acute and Mr. Geoghegan, in urging the passing of the following resolution, introby himself, waxed quite warm, parging some of the members of the board with having discriminate th board with naving discriminated ast some of the children, favoring bildren of their patients: olved. Mr. Geoghegan further stated that many of the taxpayers of the community felt that they had a great grievance against the board for excluding their children, and that it was inconsistent and unjust. He thought that it was fine to raise the vaccination boycott. Mr. Moyle moved the adoption of the resolution, but Mr. Nelden at once objected, contending that it was out of order that the call for the meeting stated that it was for the consideration of regular business. Mr. Moyle thought that it was pretty regular business, as that it was pretty regular business, as thad been up before the board at nearvery meeting for the last year and

Critchlow contended that the Mr. Critchlow contended that the matter could not come up at that time under the rules. Mr. Moyle moved then that the rules be suspended, and the question be considered. He talked to some length, becoming very earnest at times. He thought that the order of the board prohibiting unvaccinated the country of m the schools was a farce vanted to know why the school board orilized at the behest of the health when that body was absolute

Bamberger stated his reason for not voting to suspend the rules. Al-though he feit that the school board had done its duty by the health board, wanted time to consider the matter. He was in favor of opening the schools all children, and said he would s vote at the next meeting. He thought hat the responsibility of closing the board and not with the school board.
On motion of Mr. Moyle it was decided to hold a special meeting next

When a sick man or woman finds that e or she has taken a remedy that has actually done for him or her all that is claimed for it—it can be safely predicted what will follow. Every acquaint-ance, sick or well, will be told about it. Gen. Rodriguez has written down his experience in the hope of helping others who may be so afflicted. Now, then, continued the chief, if King is innocent, and Keefe is guilty, why does not Lynch say so? I was constantly consulting physicians, and it seemed as though I was nearly ready to die. Providence sent me a bottle of Paine's celery com-pound, and this great remedy cured me of all the irritable symptoms with which I was afflicted. "Residents of Utah need have no fear that the San Pedro, Los Angeles & Salt Lake railroad will not be built," said one of the directors of that proposed company today, Continuing, he said: "For some reason or other there are some people who think that because the articles of incorporation have not yet been filed that the project is hanging fire. On the contrary, the promoters of the road have been working every day on the proposition; there has not been a day lost, and they have been working just as though the articles had been filed. Especially does this hold good at the California end of the line, where construction is being pushed with a will,"

In course of further conversation he stated that the company had adopted the seventy-five pound rail for the track right through from Salt Lake to San Pedro, and that steel would be or-dered from time to time as the work progressed. Senator Clark is expected to be in Salt Lake during the first week in February and will spend a day here and then go down to Ophir for another day to look into his mining propositions in that camp, after which he will go to Los Angeles, where he will meet with the Terminal directorate and the formal transfer of the valuable property of that road will be turned over to the new company on February 12th. Mr. Gibbon writes that he expects to be here, before Senator Clark arrives in Salt Lake, probably next week. He will bring with him all the necessary papers for filing, and it is on the books that the papers may be filed with the secretary of the continuous of the continuous contin tary of state on the occasion of Mr Gibbon's visit here, and that the ac tion will be subsequently ratified at the meeting which will take place in Los Angeles in the middle of February.

RAILROAD SHOPS. City Council Passes Ordinance Clos-

ing Streets For the Western. One of the last obstacles against the building of the shops for the Rio Grande Western was removed last night when the City Council, after keeping the subject on ice for the past two months, took up and passed, under suspension of the rules, the ordinance whereby the Rio Grande Western now has the right to close certain streets in the vicinity of the round-house and shops, thereby making it possible for the railroad to erect the projected shops, power plant and other improvements, which will be of so much fine. mitting the bill towany important amendments the measure was passed with one dissenting vote—that of Buckle, who voted against the clos-ing of Third South on the grounds that it led directly to the Jordan river

bridge Under the ordinance public traffic win be debarred from all of Third South street from Fifth West to midway between Sixth and Seventh West; Sixth West from the south line of Second South to the north line of Fourth South, Fifth South from the west line of Fifth West to the center line of Sixth West, and the east half of Sixth West from the south line of Fourth South to the north line of Sixth South street. The major portion of the land embraced by the ordinance is owned already by the railroad com-pany, and it is thought that just as as Mayor Thompson places signature upon the document that work upon the digging of the foundations for the big shops will be pushed, provided he weather permits.

Big Rush to California.

Tourist traffic to California now is the heaviest in the history of the railroads operations, the business from this city being extraordinarily large, says a Chi-cago paper. Reservations for sleeping car accommo lions have been made for weeks ahead, and the railroads do not seem to meet the emergency by adding extra cars to the faster Almost every day this month extra cars have been added to the Santa Fe "limited," and the Northwestern-Union Pacific's regular capacity taxed to more than its full capacity George T. Nicholson, passenger traffic manager of the Santa Fe, said: "The traffic to California never has been heavier than it now is. INSURCENTS TAKE THE OATH.

Manila, Jan. 22.-The disallowance by the military board of the claims of Holman & Company, merchants of Iloilo, for damage and destruction of property during the period of appeasement, which findings have been approved by Gen. MacArthur, establishes a precedent against recompensing for similar property losses in the territory in which the war operations were conducted. Some claims, notably that of the Manila and Dagupan railroad, which are now before the board, will probably go to the court of claims at Washington

and possibly eventually to Congress. The oath of allegiance has been administered in a church at Vigan to over one thousand persons, who acknowledge they had contributed to the insur-

gent cause. Chaplain Fitzgerald addressed the natives in Spanish. The parish priest translated his remarks into Ilocano and administered the oath. About 400 persons in the vicinity of

Malabon assembled in the church and on the plaza, have also taken the oath. Gen. Grant has made many captures and arrests. At present he is on a scouting expedition with over fifty men. Those who are proved to be insurgents Battery I, of the Third artillery, has
